Dear Hiring Manager,

I am writing to express my interest in employment opportunities within your organization. As a Bachelor of Information Technology graduate from Federation University, I bring a strong foundation in software development, problem-solving, and teamwork, complemented by hands-on project experience and professional work exposure.

During my bachelor's degree, I served as the Scrum Master for the Reading Teacher's Vocabulary Visualiser (RTVV) project, a capstone application designed to help educators analyze vocabulary complexity in children's books using OCR and data visualization. In this role, I coordinated team activities, managed Jira workflows, contributed to testing, and collaborated directly with clients to ensure the solution met real user needs. This project strengthened my leadership, technical, and communication skills—qualities I am eager to apply in a professional IT environment.

Furthermore, I completed key subjects that strengthened my technical and analytical skills, including Software Development, Web Development, Database Systems, Cybersecurity Fundamentals, and Project Management. Through these subjects, I gained experience in designing and developing web applications, applying usability principles (UX), managing IT projects using Agile methodologies, and understanding the fundamentals of secure and reliable systems. These academic experiences helped me build strong problem-solving abilities and a solid understanding of modern IT practices, preparing me to contribute effectively in a professional technology environment.

I am passionate about continuous learning and aspire to grow in areas such as cybersecurity, data analytics, and cloud technologies. I am confident that my technical expertise, project experience, and commitment to excellence would allow me to make a meaningful contribution to your organization.

Thank you for considering my application. I would appreciate the opportunity to discuss how my skills and experience align with your company's goals.

Best Regards,
Basil Chelackal Jameskutty
